

JAMES MATATA

Web Developer & Designer

Personal Profile

I am James Matata, pursuing a Bachelor of Science in Mathematics and Computer Science at Multimedia University of Kenya, with an expected graduation in September 2026. I hold certifications in Full Stack Development from eMobilis Technology Training Institute and Graphic Design from Mathare Community Center Library.

I have developed social platforms with real-time translation using the OpenAI API, and an e-commerce platform for buying and leasing books. I am currently working on a farmers' e-commerce platform and other innovative projects, while expanding my knowledge in artificial intelligence.

My technical skills include Python, JavaScript, HTML, CSS, SQL, Git, and Docker, with ongoing studies in React and Django. I am a creative problem solver and team player, dedicated to contributing to impactful projects and becoming a proficient full-stack developer.
